Lecture Short: Tune In to Abundance with Tarot.

\*\*\*\*\*

## Introduction

\*\*\*\*\*

The powerful meaning with Tarot has to do with the symbols and embedded principles that we can embody within our mind and use as suggestive agents to our subconsciousness.

Cosmic Law has the principle that if we ask and feel with pure intent on what we want to manifest, whatever this thought of desire we project within ourself, then the Cosmos will respond because we are the Cosmos and can tune-in with the Unified Field of all consciousness.

We can use words as symbols, but the issue with our language as a collective is the array of emotional attachments and conditional statements that we speak into existence and also within ourselves to our subconsciousness.

This implies duality so when we create life experiences in our life stories, the emotional frequency that binds these associations that we bring into our memory can sometimes create delusional expectations for what we want and what we don't want, which is encouraged to a degree, but ultimately the longer we live, the more we will want to enlighten ourselves from within so that we can be our liberated Key 0, The Fool, which is Superconsciousness.

\*\*\*\*\*

## 02: Abundance

\*\*\*\*\*

How do we tune-in to the Unified Field of Consciousness with Tarot?

With the example of 'Abundance', we need to know exactly what we want within the illusion of duality because 'Abundance' can swing the pendulum in a positive or negative direction based off our beliefs of what we think we want.

With Key 1, The Magician, we can use the Principle of Concentration to focus on the qualities of 'Abundance' that we desire as a foundation to fold upon layers of for whatever we manifest through our creations that begin with our mental images.

The powerful symbol of Key 1, The Magician, clearly displays the aspect within us that shows our right hand holding a magic wand upward, which actually means inward, and our left hand pointing downward, which actually outward, toward our garden of desires and knowledge represented by the red roses and white lilies.

The garden is our subconsciousness which we want to plant the seeds of ideas for what we really want through suggestion from our self-consciousness so that our subconsciousness will reflect back our fortunes which will manifest.

The symbols of Greater Fortune and Lesser Fortune are Jupiter and Venus which Key 10, Wheel of Fortune, and Key 3, The Empress, represent in Tarot.

\*\*\*\*\*

## 03: Mental Grasp

\*\*\*\*\*

Within the Cosmic Repository app, we can inspect further details of how 'Abundance' can be more accurately projected with a stronger impact of suggestion to our subconsciousness.

We must remember that our subconsciousness already knows everything for there is nothing new in this world and our subconsciousness is beyond more powerful than we realize, which is why if we can tune-in correctly by using symbols of Tarot, then we can align correctly to obtain the desires we create within our mental imagery.

\*\*\*\*\*

## 04: Numerology

\*\*\*\*\*

When we notice patterns of numerology such as Key 0 + Key 1 + Key 2 + Key 3 + Key 4 = Key 10, then we are creating a powerful inclusive symbol that declares our 'Abundance' for the Greater Fortune that we desire.

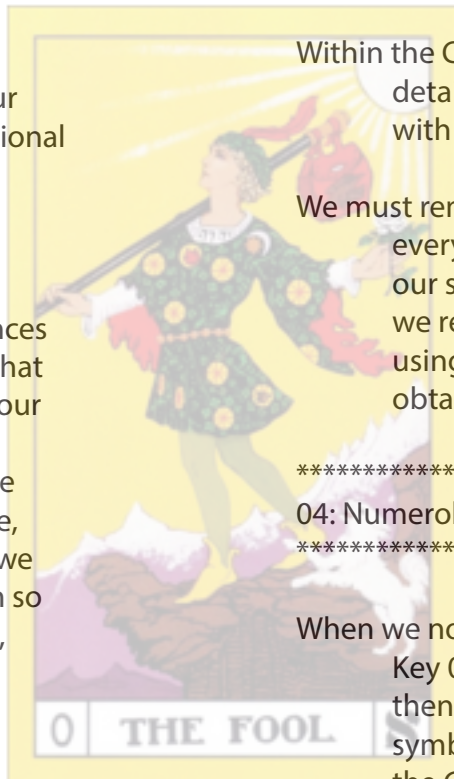

- Key 0 is Superconsciousness.
- Key 1 is Principle of Concentration.
- Key 2 is Principle of Memory.
- Key 3 is Principle of Creative Imagination.
- Key 4 is Principle of Reason.

\*\*\*\*\*

## 05: Divine Mother

\*\*\*\*\*

All the magic comes from play with symbols which means our relaxed mind can know how to tune-in with the frequency of 'Abundance' within our Cosmos.

# Tune-In to Abundance with Tarot

Notice how I created a triangle with Key 2, The High Priestess, at the top, because I created within myself the mental image of our Virgin Divine Mother of the Unmanifest which is prior to all creations and she is the Apex for all desires from which we stem from that enter into manifestation through multiplicity that are from the One and Original Desire of our One Infinite Creator.

As I continue to play with symbols of Tarot, I use this image to project powerful declarations from within to the focal point of the meanings of Key 10, Wheel of Fortune, such as:

"From the exhaustless riches of its limitless substance, I draw all things needful, both spiritual and material."

\*\*\*\*\*

06: Wheel of Fortune

\*\*\*\*\*

Assigned to Key 10 is the Hebrew letter, Kaph, which has the meaning of 'grasp' like a hand grabbing and holding onto an idea, or feeling, or a manifested object.

We want to mentally 'grasp' with the degree of intelligible, clear, explicit, positive, definite and precise of the 'Abundance' of what we really want and really desire from a involution and evolution vantage point.

Remember, Jupiter is assigned to Key 10, which is named "Greater Fortune" or "Lord of Fortune", which we can channel through the "Lesser Fortune" that is assigned to Venus of Key 3, The Empress.

\*\*\*\*\*

07: Jupiter

\*\*\*\*\*

The Jupiter center is near the solar plexus, a group of nerve cells in the abdomen behind the stomach.

A Jupiter center's correct functioning brings about the perfection of good fortune.

This organ, sometimes known as the abdominal brain, controls assimilation.

Its occult functions involve activities in which we may synchronize our existence with the Life-power's universal cycles of self-expression.

\*\*\*\*\*

08: Wheel of Fortune

\*\*\*\*\*

Key 10 represents all cycles of natural manifestation in One Power's orderly expression, identical to the innermost Spirit of Man.

The Kybalion is a statement directly bearing on the meaning of Key 10: "The farther the creation is from the Center, the more it is bound; the nearer the Center it reaches, the nearer free is it."

This powerful statement implies that the desires from within us is where we should aim to manifest our creations.

We should to continue to sink within for our answers, to contemplate on our desires, because our outward self must match our inward self which is a Cosmic Law.

\*\*\*\*\*

09: Abundance

\*\*\*\*\*

As for 'Abundance', I can visualize from within myself, Key 1, The Magician, from a place of innocence and a non-judgmental mindset that I Am already 'Abundant' in this Now moment.

This automatically aligns me with the frequency of 'Abundance' and for me to feel the 'Abundance' from within flow through me, because I desire to remove all conditions from which I created from within the illusion of duality.

Some powerful Oneness decrees are:

I Am a body of 'Abundance' in the field of space and time.

I Am the 'Abundant' power that generates the very thought which I Am the effect of our One Infinite Creator's Original Desire.

I Am always 'Abundant' with all my creations that I desire.

Notice there are no conditions within the I Am decrees.

With Tarot, I can use my Inner Self and visualize Key 3 and Key 10, both which exemplify symbols and degrees of treasures on how I can extend my pool of consciousness that does not become hooked into time or material, but rather I desire to lay foundations of 'Abundance' in the Kingdom of Heaven that is within me.

Treasures such as forgiveness, peace, unlimitedness, joy, compassion, and love are always available to all of us which ultimately brings joy to our life.

To make the choice that I Am already 'Abundant' automatically aligns with all the treasures that creates the beautiful garden in Key 1 because I hold the magic wand and I Am supported in all moments which is symbolized by the infinite sign above the Magician's head.

We all are supported in all moments, but with Tarot, we can create more clear and precise suggestions to our subconsciousness which will respond to fulfill our desires.
