Lecture Short: Key 4, The Emperor:
The Principle of Reason

We can use attributions and symbol of Key 4, The Emperor, to speak with clarity to our subconsciousness with impressions and suggestions on how we are determined to constitute our inner world which will be reflected in our outer world.

We have "outward" sight and "inward" sight.

We use our window of vision to look outward at the world and we also look inward within our house.

What is our house?

It is our body, our mind, our heart.

We use the principle of reason which has the ability to connect elements together and create a network of ideas, then create order with the ideas in a logical manner which creates a type of constitution.

Kings have done for countless centuries within the consciousness of Humanity.

The Emperor is a king.

Every one of us has the Emperor aspect within us so that we can create our own constitution of life.

Kings are known to have insights and the vision to see things as they really are which is why they obtain the position of king.

On the Cosmic Repository website, the lecture titled 4th stage of spiritual unfoldment goes into detail on how Key 4, the principle of reason works through Key 11, the agency of action, and creates an outcome of Key 18, the effect of organization.

When we use Tarot in groups of three, as shown in the Tarot Tableau, we begin to expand our consciousness.

We began to explore ourselves by unfolding from within, which is the path we should aim to tread, not the outward path.

We can train our mind to use the principles of consciousness which will produce the effect of our inner-world that will by cosmic law expand our outer-world.

We create our world with our own personal constitution, which by knowing how to use the principles of consciousness and to realize that we must develop our reason to a sharp, one pointed aim, toward what we really want, because our subconsciousness will manifest our desires.

Our Inner Teacher is our Inner Voice, which is revealed in Key 5, The Hierophant, The Principle of Intuition, the fifth stage of spiritual unfoldment.

Our Intuition is what creates our Reason.

This is why we must train our mind, to get organized, to get quiet, so that we can hear our Inner Teacher.

All 7 lectures and transcripts are available on the cosmic repository website.
